

Biobased brushes

Some of Albea's newest solutions to animate the eyelash & eyebrow segments!

Twisty 3D brush: A mascara brush 3D printed with a biobased polymer (castor oil), offering a time-to-market solution and new horizon to makeup.

Brow lifter collection: make-up enthusiasts have shifted the focus of their creations to the brows. Albéa offers 2 new twisted fiber brushes for all the needs without forgetting the Planet! The brush is made with the biobased polymer (castor oil) and bottle is available with up to 100% r-PET.
