

D.N. Airless Ø27 Lotion pack

An airless complete pack in diameter 27 mm with a neutral engine.

PRODUCT STORY

The 100% neutral NEA is a new-generation, international reference for brand owners launching advanced facial care applications (serum, lotion, moisturizer, foundation, BB cream, liquid blush, concealer and eye contour). The platform is renowned for its soft actuation and ultra-smooth application with even the highest viscosity formulas. A jewel box to protect your formula · Headlining of the formula & differentiation · A highly transparent glass polymer bottle in PETG material · Protection of the most delicate formula with a neutral engine · Extra-smooth actuation even with the most viscous formulas · Convenient and comfortable to use with a 360° application · Flexible integration in your industrial process (atmo and airless filling) Decoration: · Standard colours (pump and bottom ring only): black, white and natural · Any specific colours available on request · Standard decoration (bottle and cap): silk screening, hot stamping, metalization · Easy customization of actuator, collar and cap
