

# Project Manager

## About Albea & the Product line that is recruiting

Albéa is a global leader in beauty, personal care, oral care, pharmaceutical and food packaging. Our site, Albéa Matamoros is North America's Center of Excellence for Mascara, Lip Gloss and Lipstick Packaging.

## Scope

Leads large scale projects/programs for designated clients related to manufacturing operations to achieve internal and external customer satisfaction. Extensive contact with internal and external customers is required to obtain, clarify or provide facts and information. This position will be driving projects that focus more on costing, inventories, and cost recoveries, as well as any projects currently yet to be defined that is needed to adapt to customer needs.

## Main activities

- Responsible for oversight of key projects or for multiple, related projects / programs aligned with an assigned Business Unit's strategy.
- Manages projects/programs under assigned Business Unit direction.
- Demonstrates knowledge and skill in leading and directing project teams and in delivering project results within the constraints of schedule, budget and resources.
- Works with internal and external customers to provide excellent customer satisfaction and exceed customer expectations.
- Leads and manages the development of specific products through the various stages of the product lifecycle from concept to end-of-life.
- Broad manufacturing knowledge (i.e. materials, processes, test, logistics).
- Strong Enterprise Resource Planning (ERP) skills.
- Fundamental knowledge of cost accounting principles.
- Strong project and/or program management skills.
- Ability to define problems, collect data, establish facts, and draw valid conclusions.

## Accountability including KPIs

- Meet the established goals.
- Reporting conditions that prevent you from doing your job immediately.
- Comply with the internal work regulations and internal rules of the plant.
- Live at all times the values of: Responsibility, focus on goals, execution of priorities, direction towards results, listening and effective communication, collaboration, decision making, inspiration to renewal and living a balanced life.
- Be an interface with sales and marketing to ensure that proper customer demand data is obtained

and utilized in the planning system.

- Oversee the development of new product costs in conjunction with the Finance, Engineering and Operations Management areas.

**Profile (Experience & qualifications)**

- Bachelor's Degree preferred.
- 5+ years experience in operations and financial cost/project management knowledge in a manufacturing assembly.
- Costing: 3 years (Preferred)
- Bilingual
